

Images Tab

Primary: The primary image will display as the thumbnail for the item. Up/Down arrows moves the order of the images.

Add: Opens browse window to search for image. The window will default to look in then the Q2000\Image folder. If the image is in a different folder, browse to the folder, when image is selected a copy will be placed in the Q2000\Image folder. E-Quantum will prompt if an image with the same item ID is located in the image folder.

Up to 5 images can be added to an item. Multiple Images will display in the item detail screen; hovering over the image will change the larger display to the selected image.

View: View the image that is highlighted.

Remove: Removes the image from the list.

Force Graphic Upload: Flags the image to be uploaded to Qnet on the next export.

Alternate Image Text: Future Enhancement.

Suggested Items Tab

Additional items can be displayed on the item detail page. The Section Title renames the title of the field on Qnet.
